

Global Modern Slavery Statement

Introduction

At Close the Loop Limited (Close the Loop, CLG) we have a zero-tolerance approach to modern slavery and are fully committed to preventing slavery and human trafficking in our operation and supply chain.

This statement sets out the actions that we have taken to understand all potential modern slavery risks related to our business, and to implement steps to prevent slavery and human trafficking during the financial year 2023/24. Modern slavery describes situations where offenders use coercion, threats, or deception to exploit victims and undermine their freedom.

Practices that constitute modern slavery can include:

- Human trafficking
- Slavery
- Servitude
- Forced labour
- Debt bondage
- Forced marriage
- Child labour

Modern slavery is a term used to describe serious exploitation. It does not include practices like substandard working conditions or underpayment of workers, though these practices are also harmful and may be present in some situations of modern slavery. Modern slavery can occur in every industry and sector and has severe consequences for victims. Modern slavery also distorts global markets, undercuts responsible business, and can pose significant legal and reputational risks to entities.

This year we have assigned dedicated personnel apart from top management to monitor and act on company and supply chain governance issues. We survey our existing suppliers at least once a year on their stance on modern slavery and activity to preserve humane and beneficial working conditions, and do the same when we onboard new suppliers. We are encouraging our suppliers to become members of responsible governance platforms such as Sedex and to conduct regular audits, and we have the same expectation of the entities we own and control.
